I was in search for a hoverboard for my daughter's birthday. I looked up online good ones to buy and they say Tomoloo is the best to buy. All the ones that I was reading about they would be shipped to you broken, have to pay for shipping, problems with Bluetooth, Etc... Tomoloo never had any bad reviews, or complaints! We got ours and it was completely perfect! If I am ever in search of a new hoverboard I will definitely order from here! I highly recommend! The shipping was super fast, love the price, love the color, love the Bluetooth capability and lights! My daughter cannot stay off of it! She loves her hoverboard!

They've already mastered turning which I credit to the self stabilizing feature. It has some great features in addition to self stabilizer, Bluetooth music, adjust level for

I purchased this for our son's 10th birthday. The 1st use was good. It was Fun & he absolutely loved to ride while playing music! We charged it overnight, and the very 2nd use he couldn't get on it. Kept beeping & spinning off, very fast. He wasn't able to step on it, it was dangerous. I called amazon customer service & they gave us a credit so we can re-order a new one. Hoping the new one works like it should! I will update my review after we try the new hoverboard.

I just got this for my daughter about purchasing this hover board but my daughter wanted it so bad so I decided to buy it for Christmas. She hasn't gotten off it since! **Question:** Is this a self-balancing board?

**Answer:** All our hoverboards are mechanical self-balancing instead of electrical self-balancing. ★★★★★ Great present for myself!

Reviewed in the United States on December 3, 2018

Color: Blue **Verified Purchase**

Wanted one of those for a long time but wasn't sure which one to pick from all the options out there, eventually after making extensive research I decided to go with this one - since I got it, I don't leave my house without it. Loved everything from the box, quality of the materials and the experience of riding it - took me about 30 minutes to get the hang of it and I feel like I'm improving every time I'm getting on it.

The design is beautiful, and the feature of listening to my music while riding through the Bluetooth speakers is really awesome. Another thing I like about it is the fact that it's charging pretty fast (couple of hours) and last for a long time.

Excited to continue explore this thing

Awesome buy! Very good product. Came on time and well boxed. Gave this to my son for Christmas. This is his second one and I believe this one is far better. The larger wheels and higher clearance is definitely a plus. Interestingly the vehicle alarms when going to fast!

★★★★★ Great scooter, well made!

Reviewed in the United States on April 29, 2019

I bought this Tomoloo scooter for my daughter after returning one from another company that disappointed us. She loves it! It was very easy for her to learn on(she's 9). The battery life is good. It has been on grass, carpet and pavement and did well. All around good product.

My 12 year old son asked for a hover board for two years. I was initially concerned with safety-- both his and the fire hazards that came with the first round of the boards. I am very pleased with this purchase--my son is over the moon. The speakers were a great added bonus.
